Datorutrustning och teknisk utrustning som just nu efterfrågas:

PC-datorer med minst Pentium 2 processor sökes.
Komponenter för gamla/nya datorer sökes.
Bärbara datorer med minst Pentium 1 sökes.
Vanliga skärmar, färg, minst 15" sökes.

Plattskärmar i alla storlekar sökes.
Nätverksutrustning av alla typer sökes.
Laserskrivare av alla modeller sökes.
Nyare modeller av bläckstråleskrivare sökes.

Under mina besök på de 11 skolorna så bad jag lärare att skriva upp vilken utrustning de saknar för sin undervisning. Utifrån detta material så har jag gjort en lista på den utrustning som de efterfrågar. Jag har även inkluderat en lista från ett mindre sjukhus i Uomboni.
